

Thompson Slope Packer®

PACK SLOPES FASTER

Patent Number # : 8,550,745

Park your dozer and pack slopes eight to ten times faster. Plus with the Thompson Slope Packer® you can pack in tight clearance areas eliminating damage to silt fences, trees, and culverts.

Calvin Thompson of Thompson Grading knew that there had to be a better way than using an expensive crawler tractor. He created the slope packer because he needed a faster, cheaper way to pack slopes. By using his excavator he avoided costly repairs to his dozers and saved fuel, time and money.

SAVE FUEL. SAVE TIME. SAVE MONEY.

GET MORE DONE

- Surface rough and compact in a single pass
- Low maintenance design with heavy-duty bearings
- Self-cleaning drum eliminates carryback
- Work in wet conditions when your dozer can't
- Quality construction provides years of service
- Multiple sizes to fit your application

Transports easily and quickly

SPECIFICATIONS

Excavator Size	Model (")	Width (")	Weight (lbs.)
For Excavators weighing 33K to 110K	48 <small>1219</small>	69 <small>1753</small>	4300 <small>1950</small>
	72 <small>1829</small>	93 <small>2362</small>	5050 <small>2291</small>
	96 <small>2438</small>	117 <small>2972</small>	6300 <small>2858</small>

Determine slope packer size by machine's lift capacity at full reach plus the weight of the attachment. Questions or quotes - 800-458-3773.
